

Venn Diagram: First Nations, Métis, and Inuit Studies Inquiry

Record the similarities in the overlapping areas, and the differences in the non-overlapping areas. Once you have finished, answer the following questions underneath your diagram.

1. When you've filled in your Venn diagram, examine the results.

2. Which issues did your subjects identify as being the most critical?

3. Did any of your subjects identify the same issues as being the most critical? If so, what do you think that indicates? If not, what do you think that indicates?

4. How could you revise or rerun your inquiry to check your results?

5. Did you get any insights into your subjects or the issues raised by conducting this basic research activity? What were they?
