Observations of the Sky

Use the following table to record observations about the sky.

| Object | Example of an observation | Does this observation tell us the Earth is moving? Why or why not? |
|--------|---------------------------|--|
| Sun | | |
| | | |
| | | |
| | | |
| Maga | | |
| Moon | | |
| | | |
| | | |
| | | |
| Stars | | |
| | | |
| | | |
| | | |
| | | |

| Object | Example of an observation | Does this observation tell us the Earth is moving? Why or why not? |
|-----------------------------|---------------------------|--|
| Planets | | |
| Comets, meteors, and aurora | | |
